SUMMARY

Currently pursuing B.Tech in Computer Science and Engineering with specialization in Artificial Intelligence and Machine Learning from K.R. Mangalam University. Highly motivated, quick learner, and interested in Data Science and Machine Learning projects.

TECHNICAL SKILLS

Languages: Python, R, C

Web: HTML, CSS, JavaScript

Databases: MySQL

Tools/IDEs: Power BI, Jupyter, VS Code, PyCharm

OS: Windows, Linux (Basic)

Others: Git, Docker, DSA, Machine Learning

PROJECTS

Federated Disease Detection Using Advanced AI Models

Jan 2025 – Present

Deep Learning / Federated Learning Project

Personal

- Built a federated learning-based disease detection system enabling decentralized model training without sharing raw data.
- Implemented ResNet-50/EfficientNet with FedAvg aggregation and evaluated performance using AUC-ROC and precision-recall metrics.

AI Trip Planner

Aug 2025 – Nov 2025

LLM-Based Project

Personal

- Developed an LLM-powered travel planning system using transformer-based language models to generate personalized, day-wise itineraries.
- Implemented prompt engineering and context management to incorporate user preferences such as budget, duration, interests, and location constraints.

Smart Resume Analyzer

Feb 2024 – Apr 2024

Machine Learning Project

Personal

- Created a resume-ranking system using TF-IDF vectorization and Random Forest to match candidate resumes with job descriptions.
- Implemented NLP preprocessing, keyword extraction, and scoring mechanism using Python and scikit-learn.

EDUCATION

K.R. Mangalam University

2022 – 2026

B.Tech, CSE with AIML specialization

Gurugram, India

- Graduated 2026 | CGPA: 7.20

ADDITIONAL INFORMATION

Technical Certifications:

- Data Analysis Using Python (SaMatrix)
- Python 101 For Data Science (IBM)
- R Programming (SaMatrix)
- Web Development Bootcamp (Udemy)
- Drone Technology Bootcamp: IIT Mandi
- IoT Workshop: NIT Kurukshetra

Soft Skills: Collaborative development, critical thinking, time management, adaptability in agile environments

Extracurricular Activities: Active member of university coding club, participant in national hackathons, recognized eSports team strategist

Awards and Achievements: 1st Place – Gaming Rumble (BGMI), EDURE FIESTA 2023, 2nd Place – Tech Odyssey 2024 (CSI Club)
